**Perspective Plan of the Institute
(2025-2027)**

The Institute has prepared perspective plan for the development in the field of education. The intension of the institute is to executive Academic plans, Infrastructural plans and administrative plans in the following way –

1) To start certificate courses:

The college proposes to start various certificate courses for the students to obtain the professional certifications they need to gain employment or advance in their careers. These courses will help the students to develop their personality as well.

2) To organize state and national level seminars and workshops:

The college intends to organize state and national level seminars and workshops for the acquirement of knowledge in a particular field. Such programs provide a platform to interact with experts from the specific field. The faculty members and the students will learn about the latest information and new skills related to the concerned subject.

3) To undertake feedback from the stakeholders:

The feedback from the stakeholders will play a crucial role for the development of the college. To gain academic excellence it is important to get suggestions from the teachers, parents, students and the alumni of the college.

4) To undertake research projects:

The college proposes to encourage faculty members to engage them in research by undertaking major and minor projects. By under taking projects, the institute will try to inculcate this research scientific, culture among the teachers and the students.

5) To sign Collaboration and Linkages:

The college proposes to sign memorandum of Understanding with other institutions. It will help establishing coordinated efforts. The departments from the college will be promoted to sign memorandum of Understanding with other institutions.

6) To promote ICT based teaching:

The faculty members of the institute will be promoted for ICT based teaching in the college. The equipment's and the facilities related to ICT will be made available in the college. This will help the teachers to make their teaching effective and interesting.

7) To establish competitive Exam Centre for students:

The aim of establishing Competitive Exam Centre is to introduce the students with administrative career. This center will help the students to create interest and awareness among the students about civil services. The students who face competitive exams held by MPSC and UPSC will be benefitted.

8) To carry out extension activities:

The extension activities will be organized in the college through NSS. The NSS department of the college will arrange special camps in the villages and make aware people about cleanliness. In the camp people will be made aware about superstition, environment and different diseases. Blood donation camp and health checkup programs will also be arranged through NSS.

9) To develop college website:

The college intends to create, design and develop the website. This would help the students to know about the courses and facilities available in the college. It is also important to update the college website regularly.

10) To establish Career Counseling Cell:

Career Counseling Cell will introduce career opportunities to the students. Through this Career Counseling Cell, the lectures of experts from different fields will be held for the students in the college. This cell will help the students to prosper their career by taking the guidance of well-known personalities.

11) To organize training programs:

The college aspires to organize training programmes for teaching and non-teaching staff. This would help the faculty members and office-bearers to enrich and to update their knowledge. Such training programs will create interest to learn about the recent trends adopted in the educational field.

12) To work for faculty development:

The development of the faculty is one of the crucial objectives of the college. The college will motivate the faculty members to participate in orientation courses, Refresher Courses and Short-Term courses. By attending such courses, the teachers will be well acquainted with the recent development in their specific subject teachers will keep themselves updated. The teacher will be encouraged to publish their research paper in reputed journals.

13) To undertake academic audit:

The college intends to undertake academic audit for understanding the procedures adopted by the faculty members imparting quality education. By conducting academic audit, it will be seen that how the faculty members organize different activities and keep the record. This audit will ensure quality education.

14) To provide e-learning resources:

In order to enrich the knowledge of the students, the college will provide e-learning resources through the library. These e-learning resources will also help the teachers to enrich and prosper their knowledge.

15) To enrich college library:

The institute aims to prosper and enrich the college library by purchasing reference books and text books in the library. The Journals related with the specific subjects will also be made available. The computer for the students will be provided for making use of e-resources in the library. The software of e-learning will be made available in the library.

16) To empower women:

The college intends to empower women by holding different programs in the college. The special programs related to the laws of women will be arranged in the college campus. The technical sessions of the experts from the field of law will be invited to guide the girls to make aware them about their rights.

17) To provide financial assistance to the students:

The institute aims to provide financial assistance to the students from the downtrodden sections of the society. As it is a fact that the college is located in rural area, the students of this area face many difficulties. Therefore, the college will try to avoid the difficulties faced by poor students.

18) To arrange sports and cultural activities:

By arranging sports and cultural activities in the college premises, the students will be motivated to participate. The cultural department and sports department will take care to arrange different activities for the overall development of the students.

19) To install CCTV cameras

The college intends to install CCTV cameras in the college premises. This system in the college will avoid crime. It will also be useful to keep the campus under surveillance. It will curb sexual harassment and ragging.

20) To organize tours and field trips:

The institute proposes to organize tours and field trips for the students. It will be a part of participation learning. Such tours and field trips will create awareness among the students.

21) To arrange Yoga camps:

In order to be fit mentally and physically, the college will arrange yoga training camps for the teachers and the students. In this competitive world, it is very difficult to be free from stress. These camps would be helpful for the students and the teachers to be healthy.
